The following table shows the 18 Defense Travel Areas and the existing small business set-aside locations within these areas. A small business entity may compete for an entire Travel Area, a small business set-aside location, or a combination of both. The Department of Defense requests small business entities to identify Travel Areas they may be interested in, current small business set-aside areas they may be interested in, and/or new locations they would like to see added. If you are interested in competing for an entire Travel Area, existing set-aside location or a new location within the Travel Area, check the boxes in the "Yes" column. If you are interested in a new location within a Travel Area and would like that location to be considered for a future set-aside, indicate that location in the "New Location" column.
